The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences – Permanence of Paper for Printed Library Material. ANSI Z39.48-1984.

The binding is manufactured by Unibind® (Alpharetta, GA) and consists of a steel spine covered with a mat finish.

The Eighty-Year Index provides researchers access to lists of all articles published in Madroño since its inception in 1916. In addition, the Index provides references to thousands of taxonomic names including genus and species names, sections and subsections, figure references, and distribution maps. The Index contains over 23,000 entries organized in five main sections: Authors and Titles, Subject Index, Noteworthy Collections, Reviews of Books and Articles, and List of Volumes and Numbers. All major botanical groups are treated including angiosperms, bryophytes, gymnosperms, pteridophytes, lichens, algae, and fungi. Topics include anatomy, biogeography, botanical history, cytology, ecology, floristics, morphology, paleo- and ethnobotany, phylogeny, pollination and reproductive biology, physiology, and taxonomy.
